A. Executive Summary:

As a part of a major amendment to the Wildflower Community Plan (CP) and corresponding Master Development Agreement (MDA) approved by the City Council on April 14, 2020, a condition of approval was issued to review the hillside standards and exceptions the applicant would be proposing for this site. These are proposed as shown in Exhibit A.

Recommendation:

Staff recommends the City Council conduct a public meeting, discuss the proposed hillside standards for the Wildflower Community Plan Amendment, and approve the request with the finding and conditions as outlined in Section I of this staff report.

B. Background:

December 17, 2019 – The City Council reviewed and approved a Master Development Agreement major amendment contingent upon approval of this Community Plan major amendment. This agreement includes an allowance of 14 added units in exchange for an agreement with Camp Williams to purchase 20 acres of the Springs area for a cemetery within the next 5 years.

April 14, 2020 – The City Council approved the draft amendment to the Community Plan with a condition of approval that the applicant bring requested exceptions to the hillside standards back for review and approval. The Council also approved a corresponding Rezone, and General Plan amendment.

C. Specific Request:

The major amendment to the Wildflower Community Plan (CP) that was approved by the City Council on April 14, 2020 did not include details on the proposed exceptions to the hillside development standards. The applicant has now proposed standards specific to this development for the Council to review.

D. Process:

Pursuant to Section 19.13 of the Saratoga Springs Code, the City Council is the Land Use Authority for major community plan amendments following a recommendation from the Planning Commission. A public hearing is also required at Planning Commission for these items, which occurred on November 14, 2019.

E. Community Review:

Notice of the community plan amendment and the rezone was published and mailed to all property owners within 300 feet on October 31, 2019. As of the date of this staff report, no public comment has been received by the City. No public comment was made at the November 14, 2019 Planning Commission meeting or at any subsequent City Council meetings.

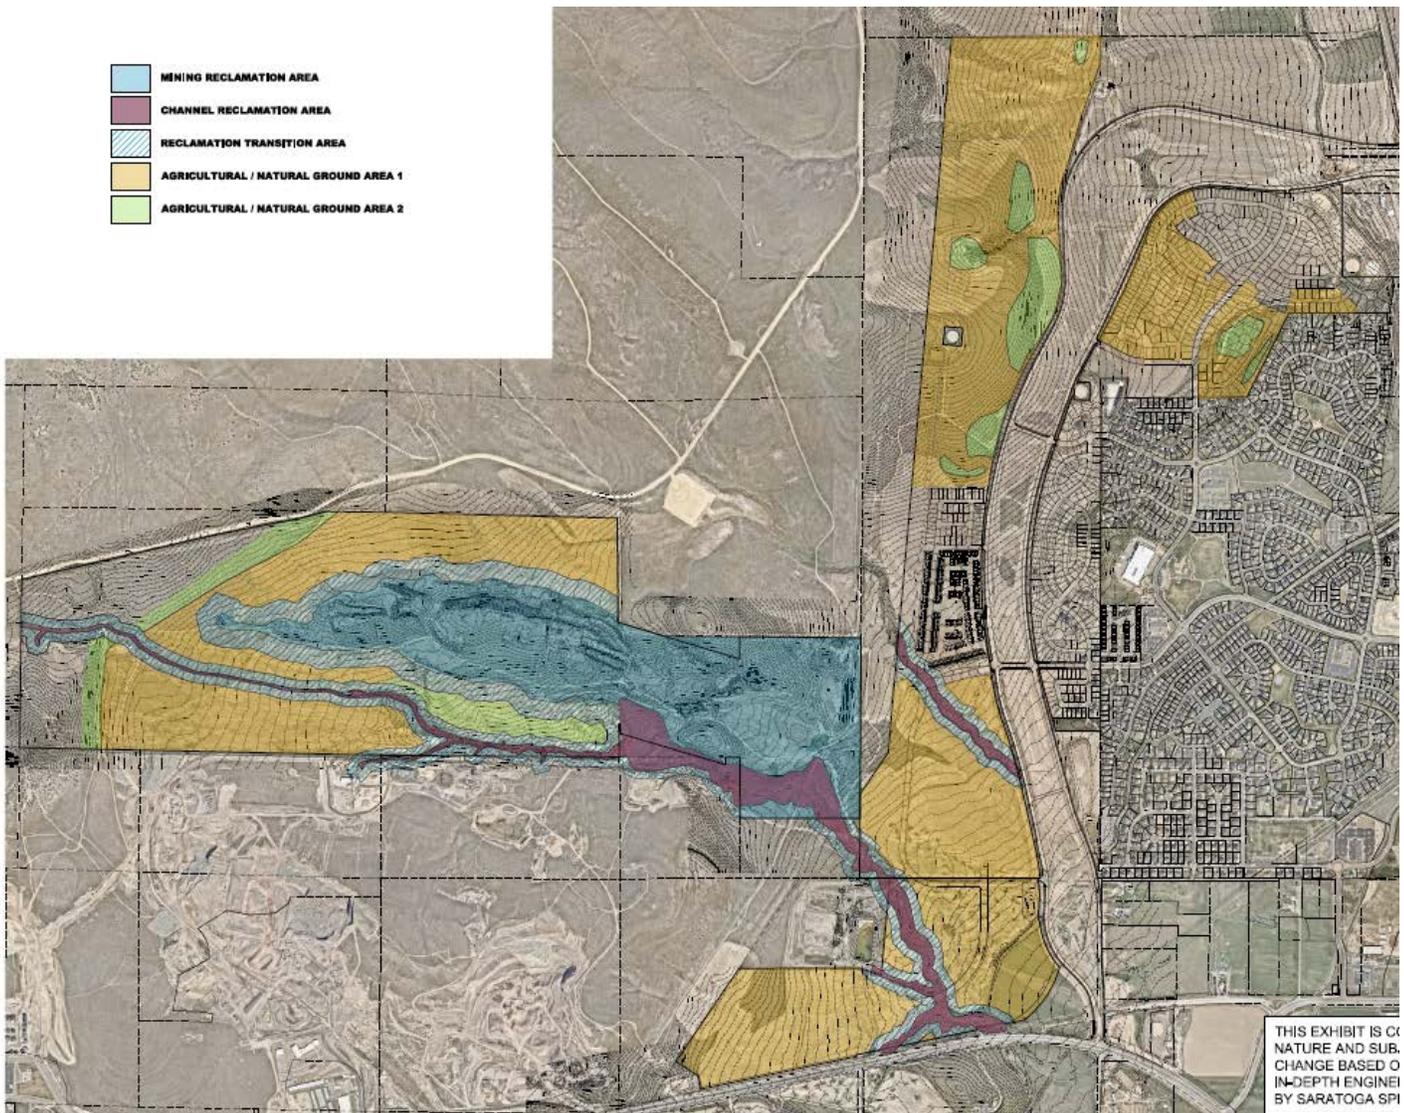

F. Staff Review:

The applicant has provided hillside development standards requesting exceptions from the existing code as shown in Exhibit A. This document identifies mining activity within the Springs portion of Wildflower and provides justification for the requested extent of cuts and fills. These

standards are proposed to allow for additional retaining and revegetation standards since the City had not yet adopted the updated hillside ordinance at the time the CP was approved. Requested exceptions are to be included as a part of the Amended and Restated MDA and CP. Any item not addressed in this document defaults to the City Code standards as of April 14, 2020.

The Wildflower community sits on significant slopes which exceed 30 percent in a many areas. As a result, a majority of the property will be subject to significant cuts and fills. The proposed grading plan as identified on Page A2-24 of the CP is to be superseded by the new exhibits.

Due to existing site conditions which include hillsides affected by mining activities, staff understands that exceptions to the current hillside ordinance may be warranted. The applicant has worked with City staff at length to develop the proposed code deviations. The entirety of the project has been broken up into 5 project areas with different grading criteria based on site conditions outlined in Exhibit A:

- 1) Mining Reclamation Area, ~171 acres: This area is characterized by surface mining activities that have occurred over at least the last 80 years as shown through Exhibits B1 and B2 which verify the disturbed nature of the site and the need for significant reclamation.
- 2) Channel Reclamation Area, ~50 acres: Several large storm drainage channels exist within the development area which are fed from drainage of Camp Williams property.
- 3) Mining/Channel Transition Area, ~121 acres: This area is located within 200 feet of the Mining Reclamation Area and 100 feet of the Channel Reclamation Area.
- 4) Agricultural/Natural Ground Area 1, ~466 acres: This area is characterized by historical agricultural uses or undisturbed natural ground and contain existing slopes of generally 5 to 15 percent.
- 5) Agricultural/Natural Ground Area 2, ~59 acres: This area is characterized by historical agricultural uses or undisturbed natural ground and contain steeper existing slopes of approximately 10 to 25 percent.

Staff has redlined the Agricultural/Natural Ground Area 2 standards as shown in Exhibit A to ensure it addresses the steep property adjacent to existing Harvest Hills lots. The Agricultural/Natural Ground Area 2 is the only defined area which requests grading exceptions for steep slopes without mining or channel activity.

The applicant is also proposing standards for retaining walls, steep slopes, and contouring similar to what was approved in the most recent approved update to Section 19.10: Hillside Development in the City Code.

G. General Plan:

The General Plan designation for this property is Planned Community-Residential for the existing residential portion of Wildflower, and Planned Community-Mixed Use for the future commercial portion of Wildflower. These designations are described as follows:

Planned Community Residential	The Planned Community designation includes large-scale properties within the City which exceed 500 acres in size. This area is characterized by a mixture of land uses and housing types, but is primarily residential. It is subject to an overall Community Plan that contains a set of regulations and guidelines that apply to a defined geographic area.	Varies
Planned Community Mixed Use	The Planned Community designation includes large-scale properties within the City which exceed 500 acres in size. This area is characterized by a mixture of land uses and housing types, and has a mixture of commercial uses. It is subject to an overall Community Plan that contains a set of regulations and guidelines that apply to a defined geographic area.	Varies

Staff conclusion: Consistent. The proposed community plan and associated general plan and zoning designation of Planned Community are consistent with these Land Use Designations.

H. Code Criteria:

19.26.06 Guiding Standards of Community Plans.

1. **Development Type and Intensity.** The allowed uses and the conceptual intensity of development in a Planned Community District shall be as established by the community plan. **Finding: Complies.** The proposed community plan maintains the intensity of development

that has previously been established within the existing Wildflower CP and Springs MDA.

2. **Equivalent Residential Unit Transfers.** Since build-out of a Planned Community District will occur over many years, flexibility is necessary to respond to market conditions, site conditions, and other factors. Therefore, after approval of a Community Plan, residential density or non-residential intensity may be transferred within the Planned Community District as necessary to improve design, accessibility, and marketability. Guiding transfer provisions shall be provided in the Community Plan and detailed transfer provisions shall be established in the Village Plans.

Finding: Complies. The proposed community plan establishes that ERU transfers on Page 3-01 of the proposed plan. The proposed standards comply with the ERU requirements of the City Code. For Wildflower, ERU transfers can occur at Village Plan or Village Plan Amendment.

3. **Development Standards.** Guiding development standards shall be established in the Community Plan.

Finding: Complies. Guiding development standards are provided on Pages 5-11 to 5-31 of the proposed plan. While the Code requires detailed standards and regulations to be contained in a Village Plan, the applicant has chosen to detail all standards now for consistency. Because there are two existing approved Village Plans within Wildflower, there have been issues with conflicting standards between VPs and CPs.

4. **Open Space Requirements.** Open space, as defined in Section 19.02.02, shall comprise a minimum of 30 percent of the total Planned Community District area.

Finding: Complies. The proposed combined community provides approximately 32.9 percent of the overall area, not including Mountain View Corridor or Commercial/Business Park areas, as open space.

5. No structure (excluding signs and entry features) may be closer than 20 feet to the peripheral property line of the Planned Community District boundaries.

Finding: Complies. No structures are proposed within 20 feet of the peripheral property line with the exception of the properties immediately adjacent to the Harvest Hills development. A landscape buffer has been provided as shown on the Land Use Exhibit on Page 2-01 of the proposed plan.

19.26.07 Contents of Community Plans.

Community Plans are general and conceptual in nature; however, they shall provide the community-wide structure in enough detail to determine the size, scope, intensity, and character of subsequent and more detailed Village Plans.

1. **Description.** A metes and bounds legal description of the property and a vicinity map

Finding: Complies. Shown on Pages 1-01 to 1-07 of the proposed plan.

2. **Use Map.** A map depicting the proposed character and use of all property within the Planned Community District. This map shall be of sufficient detail to provide clear direction to guide subsequent Village Plans in terms of use and buildout. This map is not required to specify the

exact use and density for each area and instead, to allow flexibility over the long-term, may describe ranges of buildout and ranges of uses.

Finding: Complies. Shown on Pages 2-01 to 2-05 of the proposed plan.

3. **Buildout Allocation.** An allocation of all acreage within the Planned Community District by geographic subarea or parcel or phase with ranges of buildout levels calculated based on the City's measure of equivalent residential units, including residential and nonresidential density allocations and projections of future population and employment levels.

Finding: Complies. Shown on Pages 2-01 to 2-05 and 3-01 of the proposed plan.

4. **Open Space Plan.** A plan showing required open space components and amenities
- Finding: Complies.** Shown on Pages 4-01 to 4-12 and A3-01 to A3-28 of the proposed plan. The Open Space Plan is acceptable and enforceable as redlined and agreed upon by both staff and the applicant.

35

Public Hearing Opened by Chairman Troy Cunningham. Receiving no public comment, the public hearing was closed by the Chair.

40

Commissioner Kilgore

- Asked if reducing the setback to two feet would be harder for maintaining the area, such as using a lawn mower. Planning Director Dave Stroud gave an example that you probably wouldn't grow grass back there but 2 feet is doable.

45

Commissioner Barton

- Asked about parking on the sidewalk. Was it more for safety or concern from citizens? Planning Director Dave Stroud noted there was a lot of complaints, it was also a safety issue for pedestrians. There can be damage in the parkstrip to landscaping and water meters. This is fairly standard and will give more teeth to

50 enforcement. She noted how there are neighborhoods that can't park on the street but there isn't room in the driveway for all the cars and some end up hanging over.

Commissioner Cunningham

- Was somewhat surprised this wasn't already in code.
- 55 - In response to question about enforcement during snow Planning Director Dave Stroud noted that the police worked with code enforcement on that.

57 recommendation concerning the application for the Welfare Complex Community Plan and Village Plan.
58 The proposal allocates 32 residential equivalent residential units (ERU) with one ERU equal to 2,165 square
59 feet of non-residential use, Lot 1 ERUs are to be decided, and the proposed two structures for the Bishop’s
60 Storehouse and Deseret Industries Thrift Store comprise approximately 69,788 square feet. The Planning

62 the following additional conditions: 1) look at enhancing the walls visually with pilasters or some-such
63 detail to bring it closer to compliance to City Code, and 2) look at suggesting to UDOT to mitigate Access
