INVESTIGATIONS DIVISION MONTHLY SUMMARY

October 1-31, 2011

New, significant, and labor intensive cases received by the Investigations Unit increased approximately 25% over the previous month and included sex offenses, domestic violence, stalking, custodial interference, child abuse, assaults, mental subjects, drug activity, gang activity, and seventeen new investigations involving thefts, identity thefts, frauds, or burglaries in addition to follow-up on existing active cases. Multiple sex offender registrations were completed at the police department, and gang intelligence was collected.

Among the notable cases worked this month included the identification and criminal charging of two male suspects involved in the theft of vending machine money (these suspects also stole money from machines in Salt Lake and Davis counties), and the investigation of the theft of a bronze memorial sculpture from a City park. Metal recyclers and the local media have been included in the investigation. A former high school teacher from California was convicted of sex offenses in California following assistance provided by the Saratoga Springs Police Investigations Division to the investigating agency in California and will be sentenced to approximately eight years in prison.

Detectives received training in the forensic interviewing of children and outdoor crime scene excavation.
