Mr. Hunter advised UDOT project representatives will hold a public open house on July 14, 2016, 5-7 p.m., at Thunder Ridge Elementary, to review the proposed roadway improvements, and provide information concerning the next steps leading to construction scheduled for 2017; public open house materials will be posted online following the meeting.

Council Members requested future planning for additional lanes and/or turn lanes south of Stillwater Drive to provide for the future growth, improved shoulder and bike lanes further south for safety, advised the majority of residents are opposed to soundwalls and prefer a compacted one year construction schedule, discussed possible night closure, weekend construction and traffic routing on Riverside Drive at time of construction to facilitate the schedule, and recommended public meetings be held at Sage Hills or Saratoga Shores.

Mr. Hunter advised they will return to update the Council and public in December and again in the spring, and invited Council and the public to visit udot.utah.gov/redwoodsaratoga for detailed project information and to sign up for updates.

90 week.
91

92 City Manager Christensen reported the City has successfully increased water volume significantly over the
93 weekend and will reduce the Central Utah Water Conservancy District contract provision to 500 per minute. In
94 response to Council Member Baertsch, City Manager Christensen confirmed water is being transitioned north
95 and it is estimated the 500 gpm will work for peak times of use.
96

97 City Manager Christensen reported staff is planning for the mid-year retreat next week which will include
98 capital plans discussion, and for future public open houses.
99

100 **ACTION ITEMS:**
101

- 102 1. **Award of Bids – 2016 Asphalt Preservation Project; Resolution R16-42 (7-5-16).**
103

104 Capital Facilities Manager Edwards presented the staff report and recommendation for the award of bids for the
105 2016 Asphalt Preservation Project. Manager Edwards reported Horrocks Engineering, the City's Engineering

106 Consultant, reviewed and analyzed the bids to determine the lowest qualified bidders, and noted there were no
107 bids received for the striping project which will be re-bid. Manager Edwards reported the bid amounts shown
108 include the cost to clean and crack seal the road prior to product application, and provide and install the product;
109 reported contractor references were checked and recommended contract award as follows:

- 110
- 111 Schedule A Slurry Seal – Morgan Pavement - \$98,724.45
- 112 Schedule B High Density Mineral Bond – Holbrook Asphalt - \$436,305.50
- 113 Schedule C Mastic Seal – Precision Asphalt - \$257,805.54
- 114 Schedule D Chip Seal – Consolidated Concrete and Paving - \$66,189.60
- 115 Schedule E Crack Seal – Top Job - \$119,416.28

116
117 Council Member Baertsch requested clarification concerning the difference of High Density Mineral Bond and
118 Mastic Seal, and noted although close in costs, actual bids were not as close, and not having it broken out makes
119 it a little difficult to compare. Manager Edwards reported the Engineer’s estimate did not include the cracked
120 seal cost which was the difference; in regard to the materials, they have received great reviews from other cities
121 that have increased the use of High Density Miner Bond and Mastic Seal, staff feels it may be a better product
122 and the use will give the City an opportunity to do an analysis and comparison as it has not been used
123 extensively in the past, and advised the City and other cities follow APWA Specified products, and planned for
124 multiple treatments for differing areas and conditions.

125
126 Council Member Willden inquired concerning the few number of bidders. Manager Edwards explained in
127 discussing this with contractors and other cities, they are seeing a record amount of asphalt going down this
128 year, budgets are growing, and cities are learning asphalt preservation is important and are trying to catch up,
129 which results in companies having a high volume of work.

130
131 Manager Edwards reported this project will be funded with current budget funds, B&C road revenue will be
132 included if received. City Manager Christensen reported the City will receive slightly more B&C revenue this
133 year, however, did not anticipate or count on this revenue in the budget as other cities unfortunately did and this
134 will not effect funding of the City’s projects. Council Member McOmber noted these are awards for the highest
135 quality at the lowest cost.

136
137 Motion by Council Member Poduska to adopt Resolution R16-42 (7-5-16) awarding bids to the lowest quality
138 bidders for Schedules A through E for the 2016 Asphalt Preservation Project, was seconded by Council Member
139 Baertsch

140 Roll Call Vote: Council Members Porter, Willden, McOmber, Poduska, and Baertsch – Aye
